Project Name: DRWF Wells 10 & 16 Rehabilitation

Project Location: Wells 10 and 16 are located in the City of Santa Ana
(Refer to Exhibit A)

County: Orange

Description of Nature, Purpose and Beneficiaries of Project:

Irvine Ranch Water District (IRWD) produces drinking water from 27 groundwater wells in its service area. Located within IRWD's Dyer Road Well Field (DRWF), Well 10 was constructed in 1994 and it has experienced decreased production over time. Also located within the DRWF, Well 16 was constructed in 1996 and it too has decreased its production over time.

Recent inspections and review of the flow data for these two wells have determined that each well will require rehabilitation in order to restore their respective capacities.

Reasons why project is exempt:

Work to be performed on these wells involves mechanical cleaning, including wire brushing, scrubbing the well walls, repair of any wall defects, swabbing and airlifting. The wells will be redeveloped, chemically treated and tested. Work will include necessary repairs and replacements of the pump and motor assemblies. There will be no expansion of use of the respective well sites as a result of this project.

State Guideline §15301 provides exemption for the operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination.

Submission of this form is optional. Local agencies may file this form with the county clerk pursuant to Public Resources Code Section 21152(b). The filing of the notice starts a 35-day statute of limitations on court challenges to the approval of the project under Public Resources Code Section 21167(d). Failure to file the notice results in the statute of limitations being extended to 180 days.
