Reasons why project is exempt:

Work to be performed on these existing wells involves mechanical rehabilitation, cleaning, including wire brushing, scrubbing the well walls, repair of any wall defects, swabbing and airlifting. The well will be chemically treated to remove biological and inorganic foulants, redeveloped by pumping, and tested. Work will include necessary repairs and replacement of the pump and motor. There will be no expansion of use of this site as a result of this project. This work is exempt under Categorical Exemption 15301.

Class 1 consists of the operation, repair, maintenance, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination.

Submission of this form is optional. Local agencies may file this form with the county clerk pursuant to Public Resources Code Section 21152(b). The filing of the notice starts a 35-day statute of limitations on court challenges to the approval of the project under Public Resources Code Section 21167(d). Failure to file the notice results in the statute of limitations being extended to 180 days.
