Project Name: Well 107 Replacement

TOM DALY, CLERK-RECORDER
By: [Signature] DEPUTY

Project Location: Northwest of Culver Drive and Trabuco Road
Irvine, Ca. (See Figure 1)

County: Orange

Description of Nature, Purpose and Beneficiaries of Project:

Irvine Ranch Water District (IRWD) will be replacing existing Well 107 with another well of similar capacity adjacent to its current location. The project will include the destruction and replacement of the existing well, wellhead, pipeline, electrical and ancillary facilities. Well destruction will include sealing of the well, which protects the aquifer and public by preventing access. This activity will comply with standards and local ordinances for such activities and will result in less than significant impacts. The replacement well will have a production rate that will be similar to the existing well, which will not result in an expansion of existing capacity or use.
